

A man with a nose ring and a black leather jacket is focused on his work at a DJ console. The console is illuminated with blue and red lights. In the background, a red brick wall and a large arched window are visible. A silver laptop with the Apple logo is open on the console to the right. The overall atmosphere is moody and professional.

EXPERIENCE CURATOR

Kaaos Jones has spent over twenty+ years perfecting his craft. As a mainstay in the LA nightlife and wedding industry, he is known for his fresh blend of cross-genre mixing which makes him in high demand for all sorts of events. In addition to spinning at private & corporate events, he also works in the television and film industry. He describes his DJ style as high frequency, with a firm dedication to “dance floor finesse” keeping it moving at all times.
